DESERTION TO BE MADE FELONY BY BILL INTRODUCED IN LEGISLATURE

Associated Charties Organization Begins Campaign For Better Laws on Matter

CONSOLIDATION SCHEME

Boroughs Can Own and Operate Jointly Utilities Concerns if Bill Presented Yesterday Goes Through.

(Special Correspondence)

Harrisburg, Jan. 27—The man who deserts his wife and family, when he think the burden is too strenuous to bear, or the woman who deserts her children to "go with a handsomer man," will have a whole lot harder sledding if they are caught than heretofore, if the bill introduced by Representative Conners of Allegheny becomes a law. This bill makes wife and family desertion a felony instead of a misdemeanor. This puts the offender in the criminal class and he or she then ranks in the eyes of the law the same as a burglar or a thief, subject to imprisonment in the penitentiary, as well as a fine and political disfranchisement.

This bill was introduced at the instance of the Associated Charities of Pittsburg, and is the most drastic piece of legislation along that line ever presented to the General Assembly. It is said to also have the sanction of the juvenile court committees of the western end of the State

A bill permitting two or more boroughs to unite in constructing and operating water and electric light plants has been introduced by Representative Kern of Montgomery county. This is a most important measure, and is designed to protect boroughs from the burden of public utilities monopolies. Inasmuch as Charleroi, Belle Vernon, North Charleroi, Speers and Monessen, all of which are less than two miles from each other, and some adjoining, are served with electricity for light and power by the same private corporation, these boroughs could by uniting in the construction and operation of a plant get this service at a minimum for both the public and private consumers.

STRICKEN MINISTER PERFORMS CEREMONY

Rev. Negley of Fayette City Says Words Which Binds Lives of His Son and Well Known Young Woman

After the long cherished plan of George Decker Negley and Miss Mary Angeline Wallace to be married by the former's father, the Rev. Theodore S. Negley, has been abandoned because of the minister's serious illness at the latter's home near Fayette City, the aged clergyman startled the marriage party Wednesday evening by a sudden revival of strength and demanding that he be allowed to perform the ceremony His wish was gratified and the clergyman who had been engaged was a spectator

Mr. Negley has been unconscious much of the time since he became ill. His son and Miss Wallace decided that though it would be impossible to have the stricken minister marry them, they would be married at once. The Rev. Edwin D Bevier was asked to perform the ceremony.

George Negley, Miss Wallace and immediate members of the Negley family gathered in the room where the groom's father sat bolstered up in a chair Mr. Bevier was about to begin reading the marriage service when the elder Mr. Negley, who a few hours before had been believed to be dying, suddenly exhibited a marvelous accession of strength and to the surprise of all announced he was well enough to take charge of the service.

Mr. Bevier stepped back In a clear voice Mr. Negley performed the ceremony. Afterward he relapsed into his previous condition and grave doubts of his recovery are entertained.

Considerable surprise was occasioned by the announcement today in Charleroi of the marriage in Cumberlad, Md., on Tuesday of Miss June Adams of Monessen and Benjamin I. Eggers of Belle Vernon. The couple started to Pittsburg, Miss Adams having an errand for her mother, and then they expected to attend one of the theatres. At McKeesport they took a fast train to Cumberland and were married there at 12:40 o'clock. They returned the same night. MUCH INTEREST IN SCHENK VERDICT

Charleroi People Anxious to Hear Latest Reports.

Much interest was manifested in Charleroi yesterday over the outcome of the Schenck trial in Wheeling, where the case of Mrs. Laura Schenck, charged with poisoning her millionare husband was up to the jury. Many calls were telephoned into the Mail office inquiring the result, but nothing was learned until about 7 o'clock last evening, when word came over the wire that the jury had disagreed After 25 hours of deliberation the poll stood 11 for acquittal, and one for conviction. The jury was discharged and it is stated that the opinion prevails in Wheeling that Mrs. Schenck will never again face trial on the same charge, although this the logical result of the failure of the jury to agree.

CLAIMED RELATIONSHIP ONLY IN WAY OF JOKE

Picture Man Asked His Purpose in Pretending Brother of Merchant.

It didn't take long to get rid of a picture man by the name of J. C. Newcomer in police court last evening. Newcomer had been charged with getting businesson false pretense through pretending to be a brother of C. R. Newcomer, the local shoe merchant. J. C. laughed it away and said it was all a joke. Burgess Risbeck consented for the occasion to look at it in that way, but administered a sharp admonition not to do it again.

Exonerations for 1909 Amount to Nearly $300

ORDINANCE ON TABLE

Action Postponed on Regulation Proposed by Bell Telephone Company

Council did not take up the Bell Telephone ordinance calling for the placing of underground conduits last night, but it did shovel through a bunch of work in disposing of the 1910 tax exoneration list.

Two members of council, both of the ordinance committee, failed to respond to roll call. W. H. Calvert, who is at present on a trip to the west, and Charles O. Frye, who is confined to his home by illness. For that reason the ordinance was not reported.

The entire amount of exonerations was $298 57. All were for 1909 taxes. The street committee was instructed to look after the matter of a side walk crossing for the new Hepler and Mathews auto garage at the corner of Sixth street and McKean avenue as desired by the new firm.

Bad Taste

Any person reading the Washington Observer or the Monongahela Times would imagine that those two newspapes had been constituted a commission to pass upon the liquor licenses of the county. These papers are daily engaged in instructing and advising the court as to its duty, regardless of the fact that it is the function of the latter to interpret the law according to its intent and not to administer it to suit the varying and conflicting opinions of individuals. At least, it is rather bad taste to presume to dictate to and advise the court as to its future action and duty.

The judicial branch of our government has no legislative functions. The county court cannot construe the Brooks license law to produce an opposite effect to what its provisions intended. The court has power to regulate and restrain the liquor traffic, and this it does in accordance with what in its judgment is best for the various communities within its jurisdiction. Indeed, this restriction and regulation, in a territory where public opinion and conditions are so widely at variance, is so judiciously administered in Washington county that many adent temperance advocates believe that the license discretion is in safer hands with the courts than at the option of the electors.

Big Extensions

Many millions of dollars are to be circulated in the Pittsburg disrict this season in the way of big industrial improvements. These projects are divided among big iron and steel companies, railroads and municipal and county improvements in Pittsburg and Allegheny county. The nearest any of these big projects will be to Charleroi is at Monessen, where the Pittsburg Steel company will expend $8,000,000 constructing blast furnaces and making other improvements.

All these improvements however, will radiate ndustrially over the entire district. Coal, the basic raw material, will be in greater demand. Increased industrial activity is contagious, and prosperous conditions make a demand for products for which this community furnishes raw materials or component parts. Seven big concerns alone are expected to disburse $50,000,000 in the way of improvements in the Pittsburg district, and these are only a starter. The industrial outlook for the district is particularly rosy just now.

Get Busy

The Charleroi Business Men's Association has a committee appointed to look after country road improvements leading in and out of Charleroi. Since 1905 the improvement between the end of the State road up Maple creek and Bentleyville has been approved by the grand jury, but has been relegated to the rear in favor of improvements which have been approved later. Why? Because the business people of Charleroi did not take enough interest to urge its construction before the county commissioners, and other and more progressive communities got busy, sent delegations to the county seat to urge their claims, and were given the preference. As no one was apparently interested in this movement it has been permitted to remain in abeyance in favor of other sections whose people were more energetic in urging their claims.

Already delegations are visiting the commissioners at the county seat to urge the improvement of other sections approved by the grand jury. Only a limited amount can be improved each year, and it is possible that it is already too late to get any consideration for the connecting link between the Maple creek road and Bentleyville this year. The improvement of this road would be a decided help to Charleroi, and it is due to inactivity on our part that it was not made some years ago.

PICKED UP IN PASSING

"Did you ever notice a certain period of the year when bad luck affected you in a not altogether serious, but in a particularly annoying way?" asked a Charleroi man the other day. "No? Well let me tell you we've had our share this year. Our hot air furnace, which at the best is only a sort of dyspeptic affair that eats up coal faster than a small boy digests apple pies of his mother's make, was the chief offender and star performer all in one. The winter had't more than set in, as you remember, when those cold days came. Phew! how we shivered, for that infernal furnace wouldn't heat the house worth a continental. But it was better than the worst. Then on the coldest morning the dratted thing drew its' last breath, heaved a dusty sigh of disgust and gave up the ghost. The furnace undertakers, doctors and so forth were called in to pronounce the eulogy. They said it needed a new bottom.

"We affably agreed it did, for we knew if there was anything in creation it didn't need, it had not yet been discovered. They proceeded to order the bottom and within due course of furnace maker's time—two weeks—it arrived. Then the furnace men went to work. After the tearing the furnace all to pieces, they made the discovery that it needed another piece. Shades of Morpheus! Will wonders never cease? They'll discover some day that there is an economic problem.

"The order for the new piece was sent in. Of course the inevitable happened. The furnace shop didn't get the order or something like that, and after a month or so had elapsed and another order was sent in, back came the information that the factory had closed down and would remain closed for some time to come. Some time did come—and go—still no furnace.

"Finally another cold spell arrived and stuck like a porous plaster. And just after that cold spell had passed and the weather became quite balmy, of course the piece of furnace arrived. It was duly set up, and the hot air seems a little hotter in some of our rooms now, the smoke a little less smokeless and the furnace doesn't seem quite so hungry. But back to the hard luck story again, I think our family has had its share."

"These county fights sometimes develop interesting situations," remarked C. C. Holyfield of the local Singer Sewing Machine Agency, the other day, when the subject to the proposed new county was under discussion.

"I was located at Parson, in Tucker county, West Virginia, some years ago, when they moved the county seat from St. George to the former town. Parsons was the best location, and the people voted in favor of the change. This prestige was all that St. George had as a town, and the citizens were bitterly opposed to the change, so much so that they declared they would not surrender the county records and fixtures.

"Finally, after the matter had gone through some legal proceedings, it was up to those interested to make the transfer, so a big delegation from Parsons chartered some teams and drove over to St. George to get the outfit. The people of St. George even went so far as to bring in 200 Winchester rifles with which they armed themselves and threatened bloodshed if the attempt were made to remove the court records.

"We arrived in St George in the night, but could get no lodging or anything to eat. We were treated like an invading army in a hostile country. No one would sell us a meal or a place to sleep, and all camped out or walked the streets until daylight. There was some threatening talk and demonstrations, but cooler counsel prevailed, and we loaded the county records and other outfit on wagons. A scaffold was built on a four-horse wagon and we mounted the court house bell on this, and drove out of town with the bell tolling triumphantly. That enraged the St George people to a frenzy, and they pelted us with stones, sticks and clods, even the women and children joining in. We made all haste in getting out of town, and Parsons has been the county seat ever since."

"When is Thanksgiving?" asked a visitor at the Mail office last evening. The editor consulted a calendar, which gave November 30 in red figures, and informed the inquirer that Thursday, November 30, would be the day on which to carve turkey.

"But my calendar says November 23 is Thanksgiving," persisted the visitor.

Another calendar in the office was consulted, and sure enough, Thursday, November 23, was in red figures. Immediately a discussion arose as to which was the correct date. Some contended that the fourth Thursday of November was the proper date for giving thanks, while others claimed that the last Thursday of the eleventh month was the correct date. It so happens that there are five Thursdays in November this year, and in view of the difference of opinion and the absence at hand of any authoritive information, the question is still unsettled. As the Pennsylvania law designates "any day appointed or recommended by the Governor of this State or the President of the United State as a day of thanksgiving or fasting and prayer," as a legal holiday, it is probably up to President Taft to fix the date in his proclamation.

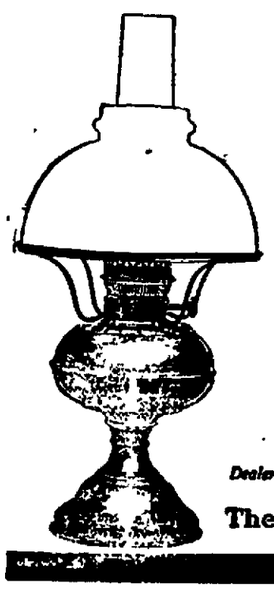
The Famous Rayo



Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil light has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay $5, $10, or $20 for some other lamp, and although you get a more costly lamp, you can't get a better light than the white, mellow, diffused, unflickering light of the low-priced Rayo.

INDIGESTION

Relief is Five Minutes and Permanent Cere or Money Back

When Piper Bros. states that he has a remedy that only costs 50 cents and is guaranteed to cure any man or woman who suffers from food fermentation, or money back, what are the poor stomach sufferers in Charleroi and vicinity going to do about it?

Food fermentation causes belching, sour stomach, gas ecrutation, heartburn and that lump of lead feeling as you probably know.

The name of this most remarkable stomach prescripiton is Miona. Most peopile call them Miona stomach tablets because they know that there is no remedy so good for indigestion or stomach disorders. Here is one opinion:

"I have been troubled with indigestion for more than a year. I bought one box of Miona and it cured me. Now I would not be without a box in the house for $5.00 It saves a lot of doctor bills when you can be cured for 50 cents—Arthur Sederuest, 6 Nichols St., Wakefield, Mass.

Little Miona stomach tablets cost 50 cents a box at Piper Bros. and druggists everywhere and money back if they don't cure.

ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Sun sets 5:07, rises 7:10; moon rises 6:25 a. m.; 12:22 midnight, planet Mercury in conjunction with the moon; the two bodies seen near each other low in east at daybreak.

Bad Taste

Any person reading the Washington Observer or the Monongahela Times would imagine that those two newspapes had been constituted a commission to pass upon the liquor licenses of the county. These papers are daily engaged in instructing and advising the court as to its duty, regardless of the fact that it is the function of the latter to interpret the law according to its intent and not to administer it to suit the varying and conflicting opinions of individuals. At least, it is rather bad taste to presume to dictate to and advise the court as to its future action and duty.

The judicial branch of our government has no legislative functions. The county court cannot construe the Brooks license law to produce an opposite effect to what its provisions intended. The court has power to regulate and restrain the liquor traffic, and this it does in accordance with what in its judgment is best for the various communities within its jurisdiction. Indeed, this restriction and regulation, in a territory where public opinion and conditions are so widely at variance, is so judiciously administered in Washington county that many adent temperance advocates believe that the license discretion is in safer hands with the courts than at the option of the electors.

Big Extensions

Many millions of dollars are to be circulated in the Pittsburg disrict this season in the way of big industrial improvements. These projects are divided among big iron and steel companies, railroads and municipal and county improvements in Pittsburg and Allegheny county. The nearest any of these big projects will be to Charleroi is at Monessen, where the Pittsburg Steel company will expend $8,000,000 constructing blast furnaces and making other improvements.

All these improvements however, will radiate ndustrially over the entire district. Coal, the basic raw material, will be in greater demand. Increased industrial activity is contagious, and prosperous conditions make a demand for products for which this community furnishes raw materials or component parts. Seven big concerns alone are expected to disburse $50,000,000 in the way of improvements in the Pittsburg district, and these are only a starter. The industrial outlook for the district is particularly rosy just now.

Get Busy

The Charleroi Business Men's Association has a committee appointed to look after country road improvements leading in and out of Charleroi. Since 1905 the improvement between the end of the State road up Maple creek and Bentleyville has been approved by the grand jury, but has been relegated to the rear in favor of improvements which have been approved later. Why? Because the business people of Charleroi did not take enough interest to urge its construction before the county commissioners, and other and more progressive communities got busy, sent delegations to the county seat to urge their claims, and were given the preference. As no one was apparently interested in this movement it has been permitted to remain in abeyance in favor of other sections whose people were more energetic in urging their claims.

Already delegations are visiting the commissioners at the county seat to urge the improvement of other sections approved by the grand jury. Only a limited amount can be improved each year, and it is possible that it is already too late to get any consideration for the connecting link between the Maple creek road and Bentleyville this year. The improvement of this road would be a decided help to Charleroi, and it is due to inactivity on our part that it was not made some years ago.

PICKED UP IN PASSING

"Did you ever notice a certain period of the year when bad luck affected you in a not altogether serious, but in a particularly annoying way?" asked a Charleroi man the other day. "No? Well let me tell you we've had our share this year. Our hot air furnace, which at the best is only a sort of dyspeptic affair that eats up coal faster than a small boy digests apple pies of his mother's make, was the chief offender and star performer all in one. The winter had't more than set in, as you remember, when those cold days came. Phew! how we shivered, for that infernal furnace wouldn't heat the house worth a continental. But it was better than the worst. Then on the coldest morning the dratted thing drew its' last breath, heaved a dusty sigh of disgust and gave up the ghost The furnace undertakers, doctors and so forth were called in to pronounce the eulogy. They said it needed a new bottom.

"We affably agreed it did, for we knew if there was anything in creation it didn't need, it had not yet been discovered. They proceeded to order the bottom and within due course of furnace maker's time—two weeks—it arrived. Then the furnace men went to work. After the tearing the furnace all to pieces, they made the discovery that it needed another piece. Shades of Morpheus! Will wonders never cease? They'll discover some day that there is an economic problem.

"The order for the new piece was sent in. Of course the inevitable happened. The furnace shop didn't get the order or something like that, and after a month or so had elapsed and another order was sent in, back came the information that the factory had closed down and would remain closed for some time to come. Some time did come—and go—still no furnace.

"Finally another cold spell arrived and stuck like a porous plaster. And just after that cold spell had passed and the weather became quite balmy, of course the piece of furnace arrived. It was duly set up, and the hot air seems a little hotter in some of our rooms now, the smoke a little less smokeless and the furnace doesn't seem quite so hungry. But back to the hard luck story again, I think our family has had its share."

"These county fights sometimes develop interesting situations," remarked C. C. Holyfield of the local Singer Sewing Machine Agency, the other day, when the subject to the proposed new county was under discussion.

"I was located at Parson, in Tucker county, West Virginia, some years ago, when they moved the county seat from St. George to the former town. Parsons was the best location, and the people voted in favor of the change. This prestige was all that St. George had as a town, and the citizens were bitterly opposed to the change, so much so that they declared they would not surrender the county records and fixtures.

"Finally, after the matter had gone through some legal proceedings, it was up to those interested to make the transfer, so a big delegation from Parsons chartered some teams and drove over to St. George to get the outfit. The people of St. George even went so far as to bring in 200 Winchester rifles with which they armed themselves and threatened bloodshed if the attempt were made to remove the court records.

"We arrived in St George in the night, but could get no lodging or anything to eat. We were treated like an invading army in a hostile country. No one would sell us a meal or a place to sleep, and all camped out or walked the streets until daylight There was some threatening talk and demonstrations, but cooler counsel prevailed, and we loaded the county records and other outfit on wagons. A scaffold was built on a four-horse wagon and we mounted the court house bell on this, and drove out of town with the bell tolling triumphantly. That enraged the St George people to a frenzy, and they pelted us with stones, sticks and clods, even the women and children joining in. We made all haste in getting out of town, and Parsons has been the county seat ever since."

"When is Thanksgiving?" asked a visitor at the Mail office last evening. The editor consulted a calendar, which gave November 30 in red figures, and informed the inquirer that Thursday, November 30, would be the day on which to carve turkey.

"But my calendar says November 23 is Thanksgiving," persisted the visitor

Another calendar in the office was consulted, and sure enough, Thursday, November 23, was in red figures. Immediately a discussion arose as to which was the correct date. Some contended that the fourth Thursday of November was the proper date for giving thanks, while others claimed that the last Thursday of the eleventh month was the correct date. It so happens that there are five Thursdays in November this year, and in view of the difference of opinion and the absence at hand of any authoritive information, the question is still unsettled. As the Pennsylvania law designates "any day appointed or recommended by the Governor of this State or the President of the United State as a day of thanksgiving or fasting and prayer," as a legal holiday, it is probably up to President Taft to fix the date in his proclamation.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

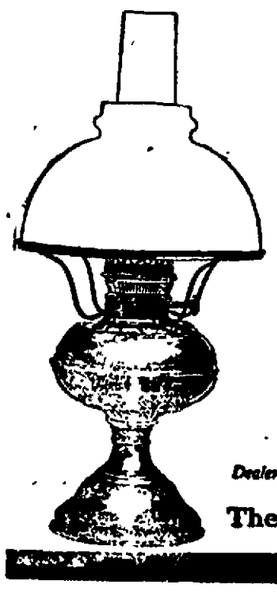
Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women." —MRS. WM. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

The Famous Rayo



Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil light has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay $5, $10, or $20 for some other lamp, and although you get a more costly lamp, you can't get a better light than the white, mellow, diffused, unflickering light of the low-priced Rayo.

Has a strong, durable shade-holder. This season's burner adds to the strength and appearance. Made of solid brass, nickeled, and easily polished.

DRAWS OUT POISON

Marvelous Antiseptic that Draws Glass, Wood and Needles from the Flesh.

There never was known such a powerful drawing ointment as San Cura. Wherever it has been used it has created astonishment. It drew a needle out of the foot of the daughter of Mrs. James Hitchcock of Centerville, Pa. after the doctor had used his lance and failed.

Used as a poultice for old or running sores, it draws all the poison out and leaves it in such condition that it is entirely healed in a few days.

Nothing so healing or antiseptic can be purchased today. It possesses so much healing virtue that it is guaranteed by W. F. Hennings to quickly cure any kind of piles, eczema, tetter, salt rheum, boils, carbuncles, ulcers, all kinds of chronic sores, chilblains and chapped hands or money back.

It's a mighty handy remedy to have in the house in an emergency such as bruises, burns, cuts or scalds, because it kills the pain instantly. It's a medicine chest in itself—a little family physician that is ever in demand. 25 cents and 50 cents a jar at W F. Hennings.

BEST SKIN SOAP

Is San Cura Soap, because of its great antiseptic and healing virtues. Use it regularly, and it will make the skin soft and velvety; will remove pimples and backheads. It's the real soap for babies' tender skin, which mothers of infants should remember. 25 cents a large cake at W. F. Henning's.

Polishing a Diamond.

The polishing of a diamond is a very slow process, because of the great hardness of the material; besides this, the work must be frequently interrupted to allow the disk to cool out after it has become overheated by friction. Each time a new facet is to be cut the diamond must be removed from the dop and reset at another angle, and the diamond cutter trusts to his eye alone to guide him in this delicate adjustment, although in the case of very small diamonds a magnifying glass is necessary. The skill shown in placing the stone in the heated metal, sometimes with the bare hand is surprising. The regular brilliant has fifty-six facets, besides the table and the collet—thirty-two above the girdle and twenty-four below—but as eight facets are first formed, both above and below, each of these being recut into three or four smaller ones, there are considerably more than fifty-six separate surfaces to be cut.—From George F. Kunz in Century.

The Canny Scot's Sense of Humor.

The reason a Scot does not laugh at a joke right away, says Dean Ramsay, is not, as is the popular fiction, that he is "slow in the uptake," but that the canny man will not commit himself. He must think it over before he dolates the exact amount of laughter which the joke deserves. The Scot minister, who is Scotland's common public speaker, is aware, consciously or instinctively, of this trait, and his delivery of an anecdote with a point is a thing of unique art.

Just the Opposite.

"When I first met you," cried the woman who had been married for her money, "you occupied a low, menial position, but now, thanks to me, your position"—

"Is a hymeneal one," her husband interrupted.

DESERTION TO BE MADE FELONY BY BILL INTRODUCED IN LEGISLATURE

Associated Charties Organization Begins Campaign For Better Laws on Matter

CONSOLIDATION SCHEME

Boroughs Can Own and Operate Jointly Utilities Concerns if Bill Presented Yesterday Goes Through.

(Special Correspondence)

Harrisburg, Jan. 27—The man who deserts his wife and family, when he think the burden is too strenuous to bear, or the woman who deserts her children to "go with a handsomer man," will have a whole lot harder sledding if they are caught than heretofore, if the bill introduced by Representative Conners of Allegheny becomes a law. This bill makes wife and family desertion a felony instead of a misdemeanor. This puts the offender in the criminal class and he or she then ranks in the eyes of the law the same as a burglar or a thief, subject to imprisonment in the penitentiary, as well as a fine and political disfranchisement.

This bill was introduced at the instance of the Associated Charities of Pittsburg, and is the most drastic piece of legislation along that line ever presented to the General Assembly. It is said to also have the sanction of the juvenile court committees of the western end of the State. A bill permitting two or more boroughs to unite in constructing and operating water and electric light plants has been introduced by Representative Kern of Montgomery county. This is a most important measure, and is designed to protect boroughs from the burden of public utility monopolies. Inasmuch as Charleroi, Belle Vernon, North Charleroi, Speers and Monessen, all of which are less than two miles from each other, and some adjoining, are served with electricity for light and power by the same private corporation, these boroughs could by uniting in the construction and operation of a plant furnish this service at a minimum for both the public and private consumers. Governor Tener yesterday visited Altoona and inspected the sanitarium for tuberculosis patients. He made an address to the 700 patients there and expressed himself as well pleased with the comfortable appointments and sanitary regulations of the resort.

STRICKEN MINISTER PERFORMS CEREMONY

Rev. Negley of Fayette City Says Words Which Binds Lives of His Son and Well Known Young Woman

After the long cherished plan of George Decker Negley and Miss Mary Angeline Wallace to be married by the former's father, the Rev. Theodore S. Negley, has been abandoned because of the minister's serious illness at the latter's home near Fayette City, the aged clergyman startled the marriage party Wednesday evening by a sudden revival of strength and demanding that he be allowed to perform the ceremony His wish was gratified and the clergyman who had been engaged was a spectator

Mr. Negley has been unconscious much of the time since he became ill. His son and Miss Wallace decided that though it would be impossible to have the stricken minister marry them, they would be married at once. The Rev. Edwin D Bevier was asked to perform the ceremony.

George Negley, Miss Wallace and immediate members of the Negley family gathered in the room where the groom's father sat bolstered up in a chair Mr. Bevier was about to begin reading the marriage service when the elder Mr. Negley, who a few hours before had been believed to be dying, suddenly exhibited a marvelous accession of strength and to the surprise of all announced he was well enough to take charge of the service.

Mr. Bevier stepped back In a clear voice Mr. Negley performed the ceremony. Afterward he relapsed into his previous condition and grave doubts of his recovery are entertained.

MUCH INTEREST IN SCHENK VERDICT

Charleroi People Anxious to Hear Latest Reports.

Much interest was manifested in Charleroi yesterday over the outcome of the Schenck trial in Wheeling, where the case of Mrs. Laura Schenck, charged with poisoning her millionaire husband was up to the jury. Many calls were telephoned into the Mail office inquiring the result, but nothing was learned until about 7 o'clock last evening, when word came over the wire that the jury had disagreed After 25 hours of deliberation the poll stood 11 for acquittal, and one for conviction. The jury was discharged and it is stated that the opinion prevails in Wheeling that Mrs. Schenck will never again face trial on the same charge, although this the logical result of the failure of the jury to agree.

CLAIMED RELATIONSHIP ONLY IN WAY OF JOKE

Picture Man Asked His Purpose in Pretending Brother of Merchant.

It didn't take long to get rid of a picture man by the name of J. C. Newcomer in police court last evening. Newcomer had been charged with getting businesson false pretense through pretending to be a brother of C. R. Newcomer, the local shoe merchant. J. C. laughed it away and said it was all a joke. Burgess Risbeck consented for the occasion to look at it in that way, but administered a sharp admonition not to do it again.

Exonerations for 1909 Amount to Nearly $300

ORDINANCE ON TABLE

Action Postponed on Regulation Proposed by Bell Telephone Company

Council did not take up the Bell Telephone ordinance calling for the placing of underground conduits last night, but it did shovel through a bunch of work in disposing of the 1910 tax exoneration list.

Two members of council, both of the ordinance committee, failed to respond to roll call. W. H. Calvert, who is at present on a trip to the west, and Charles O. Frye, who is confined to his home by illness. For that reason the ordinance was not reported.

The entire amount of exonerations was $295 57. All were for 1909 taxes. The street committee was instructed to look after the matter of a side walk crossing for the new Hepler and Mathews auto garage at the corner of Sixth street and McKean avenue as desired by the new firm.

ASTRONOMICAL EVENTS

(From noon today to noon tomorrow.)

Sun sets 5:07, rises 7:10; moon rises 6:25 a. m; 12:22 midnight, planet Mercury in conjunction with the moon. The two bodies seen near each other low in east at daybreak.

Bad Taste

Any person reading the Washington Observer or the Monongahela Times would imagine that those two newspapes had been constituted a commission to pass upon the liquor licenses of the county. These papers are daily engaged in instructing and advising the court as to its duty, regardless of the fact that it is the function of the latter to interpret the law according to its intent and not to administer it to suit the varying and conflicting opinions of individuals. At least, it is rather bad taste to presume to dictate to and advise the court as to its future action and duty.

The judicial branch of our government has no legislative functions. The county court cannot construe the Brooks license law to produce an opposite effect to what its provisions intended. The court has power to regulate and restrain the liquor traffic, and this it does in accordance with what in its judgment is best for the various communities within its jurisdiction. Indeed, this restriction and regulation, in a territory where public opinion and conditions are so widely at variance, is so judiciously administered in Washington county that many adent temperance advocates believe that the license discretion is in safer hands with the courts than at the option of the electors.

Big Extensions

Many millions of dollars are to be circulated in the Pittsburg district this season in the way of big industrial improvements. These projects are divided among big iron and steel companies, railroads and municipal and county improvements in Pittsburg and Allegheny county. The nearest any of these big projects will be to Charleroi is at Monessen, where the Pittsburg Steel company will expend $8,000,000 constructing blast furnaces and making other improvements.

All these improvements however, will radiate industrially over the entire district. Coal, the basic raw material, will be in greater demand. Increased industrial activity is contagious, and prosperous conditions make a demand for products for which this community furnishes raw materials or component parts. Seven big concerns alone are expected to disburse $50,000,000 in the way of improvements in the Pittsburg district, and these are only a starter. The industrial outlook for the district is particularly rosy just now.

Get Busy

The Charleroi Business Men's Association has a committee appointed to look after country road improvements leading in and out of Charleroi. Since 1905 the improvement between the end of the State road up Maple creek and Bentleyville has been approved by the grand jury, but has been relegated to the rear in favor of improvements which have been approved later. Why? Because the business people of Charleroi did not take enough interest to urge its construction before the county commissioners, and other and more progressive communities got busy, sent delegations to the county seat to urge their claims, and were given the preference. As no one was apparently interested in this movement it has been permitted to remain in abeyance in favor of other sections whose people were more energetic in urging their claims.

Already delegations are visiting the commissioners at the county seat to urge the improvement of other sections approved by the grand jury. Only a limited amount can be improved each year, and it is possible that it is already too late to get any consideration for the connecting link between the Maple creek road and Bentleyville this year. The improvement of this road would be a decided help to Charleroi, and it is due to inactivity on our part that it was not made some years ago.

PICKED UP IN PASSING

"Did you ever notice a certain period of the year when bad luck affected you in a not altogether serious, but in a particularly annoying way?" asked a Charleroi man the other day. 'No? Well let me tell you we've had our share this year. Our hot air furnace, which at the best is only a sort of dyspeptic affair that eats up coal faster than a small boy digests apple pies of his mother's make, was the chief offender and star performer all in one. The winter had't more than set in, as you remember, when those cold days came. Phew! how we shivered, for that infernal furnace wouldn't heat the house worth a continental. But it was better than the worst. Then on the coldest morning the dreaded thing drew its' last breath, heaved a dusty sigh of disgust and gave up the ghost The furnace undertakers doctors and so forth were called in to pronounce the eulogy. They said it needed a new bottom.

"We affably agreed it did. for we knew if there was anything in creation it didn't need, it had not yet been discovered They proceeded to order the bottom and within due course of furnace maker's time—two weeks—it arrived. Then the furnace men went to work. After the tearing the furnace all to pieces, they made the discovery that it needed another piece Shades of Morphens' Will wonders never cease? They'll discover some day that there is an economic problem

"The order for the new piece was sent in. Of course the inevitable happened The furnace shop didn't get the order or something like that, and after a month or so had elapsed and another order was sent in, back came the information that the factory had closed down and would remain closed for some time to come. Some time did come—and go—still no furnace.

"Finally another cold spell arrived and stuck like a porous plaster. And just after that cold spell had passed and the weather became quite balmy, of course the piece of furnace arrived. It was duly set up, and the hot air seems a little better in some of our rooms now, the smoke a little less smokeless and the furnace doesn't seem quite so hungry. But back to the hard luck story again, I think our family has had its share."

"These county fights sometimes develop interesting situations," remarked C C. Holyfield of the local Singer Sewing Machine Agency, the other day, when the subject to the proposed new county was under discussion.

"I was located at Parson, in Tucker county, West Virginia, some years ago, when they moved the county seat from St. George to the former town. Parsons was the best location, and the people voted in favor of the change. This prestige was all that St. George had as a town, and the citizens were bitterly opposed to the change, so much so that they declared they would not surrender the county records and fixtures.

"Finally, after the matter had gone through some legal proceedings, it was up to those interested to make the transfer, so a big delegation from Parsons chartered some teams and drove over to St. George to get the outfit. The people of St. George even went so far as to bring in 200 Winchester rifles with which they armed themselves and threatened bloodshed if the attempt were made to remove the court records.

"We arrived in St George in the night, but could get no lodging or anything to eat. We were treated like an invading army in a hostile country. No one would sell us a meal or a place to sleep, and all camped out or walked the streets until daylight There was some threatening talk and demonstrations, but cooler counsel prevailed, and we loaded the county records and other outfit on wagons. A scaffold was built on a four-horse wagon and we mounted the court house bell on this, and drove out of town with the bell tolling triumphantly That enraged the St George people to a frenzy, and they pelted us with stones, sticks and clods, even the women and children joining in. We made all haste in getting out of town, and Parsons has been the county seat ever since."

"When is Thanksgiving?" asked a visitor at the Mail office last evening The editor consulted a calendar, which gave November 30 in red figures, and informed the inquirer that Thursday, November 30 would be the day on which to carve turkey.

"But my calendar says November 23 is Thanksgiving," persisted the visitor.

Another calendar in the office was consulted, and sure enough, Thursday, November 23, was in red figures. Immediately a discussion arose as to which was the correct date. Some contended that the fourth Thursday of November was the proper date for giving thanks, while others claimed that the last Thursday of the eleventh month was the correct date. It so happens that there are five Thursdays in November this year, and in view of the difference of opinion and the absence at hand of any authoritive information, the question is still unsettled. As the Pennsylvania law designates "any day appointed or recommended by the Governor of this State or the President of the United State as a day of thanksgiving or fasting and prayer," as a legal holiday, it is probably up to President Taft to fix the date in his proclamation.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness I had taken so many medicines that I was discouraged and thought I would never get well. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women." —MRS. WM. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

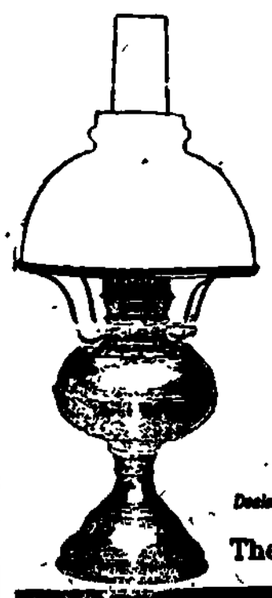
The Famous Rayo



Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil light has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay $5, $10, or $20 for some other lamp, and although you get a more costly lamp, you can't get a better light than the white, mellow, diffused, unflickering light of the low-priced Rayo.

Has a strong, durable shade-holder. This season's burner adds to the strength and appearance. Made of solid brass, nickeled, and easily polished.

INDIGESTION

Relief is Five Minutes and Permanent Cere or Money Back

When Piper Bros. states that he has a remedy that only costs 50 cents and is guaranteed to cure any man or woman who suffers from food fermentation, or money back, what are the poor stomach sufferers in Charleroi and vicinity going to do about it?

Food fermentation causes belching, sour stomach, gas ecrotation, heartburn and that lump of lead feeling as you probably know.

The name of this most remarkable stomach prescripiton is Miona. Most peopile call them Miona stomach tablets because they know that there is no remedy so good for indigestion or stomach disorders. Here is one opinion:

"I have been troubled with indigestion for more than a year. I bought one box of Miona and it cured me. Now I would not be without a box in the house for $5.00 It saves a lot of doctor bills when you can be cured for 50 cents—Arthur Sederuest, 6 Nichols St., Wakefield, Mass.

Little Miona stomach tablets cost 50 cents a box at Piper Bros. and druggists everywhere and money back if they don't cure.

DRAWS OUT POISON

Marvelous Antiseptic that Draws Glass, Wood and Needles from the Flesh.

There never was known such a powerful drawing ointment as San Cura Wherever it has been used it has created astonishment. It drew a needle out of the foot of the daughter of Mrs. James Hitchcock of Centerville, Pa after the doctor had used his lance and failed

Used as a poultice for old or running sores, it draws all the poison out and leaves it in such condition that it is entirely healed in a few days.

Nothing so healing or antiseptic can be purchased today. It possesses so much healing virtue that it is guaranteed by W. F. Hennings to quickly cure any kind of piles, eczema, tetter, salt rheum, boils, carbuncles, ulcers, all kinds of chronic sores, chilblains and crapped hands or money back.

It's a mighty handy remedy to have in the house in an emergency such as bruises, burns, cuts or scalds, because it kills the pain instantly. It's a medicine chest in itself—a little family physician that is ever in demand. 25 cents and 50 cents a jar at W F. Hennings

BEST SKIN SOAP

Is San Cura Soap, because of its great antiseptic and healing virtues Use it regularly, and it will make the skin soft and velvety, will remove pimples and backheads. It's the real soap for babies' tender skin, which mothers of infants should remember. 25 cents a large cake at W. F. Henning's.

Polishing a Diamond

The polishing of a diamond is a very slow process, because of the great hardness of the material, besides this, the work must be frequently interrupted to allow the disk to cool out after it has become overheated by friction Each time a new facet is to be cut the diamond must be removed from the dop and reset at another angle, and the diamond cutter trusts to his eye alone to guide him in this delicate adjustment, although in the case of very small diamonds a magnifying glass is necessary The skill shown in placing the stone in the heated metal, sometimes with the bare hand is surprising. The regular brilliant has fifty six facets, besides the table and the collet—thirty-two above the girdle and twenty-four below—but as eight facets are first formed, both above and below, each of these being recut into three or four smaller ones there are considerably more than fifty six separate surfaces to be cut.—George F. Kunz in Century

The Canny Scot's Sense of Humor.

The reason a Scot does not laugh at a joke right away, says Dean Ramsay, is not, as is the popular fiction, that he is "slow in the uptake," but that the canny man will not commit himself. He must think it over before he dedicates the exact amount of laughter which the joke deserves The Scot minister, who is Scotland's common public speaker, is aware, consciously or instinctively, of this trait, and his delivery of an anecdote with a point is a thing of unique art.

Just the Opposite.

"When I first met you," cried the woman who had been married for her money, "you occupied a low, menial position, but now, thanks to me, your position"—

"Is a hymeneal one," her husband interrupted.

A fourth offer includes the 10 lbs of Butterine and 3 lbs of 40c Tea at $3.00, or a saving of 50 c. Take your choice of Ceylon, English Breakfast, Assam, Oleng, Japan or Young Hyson teas.
